

RESOURCES

Personnel

Eastham & Associates believe in their people who they feel are their biggest asset, with a highly professional team of Engineers, Surveyors and Technicians.

The **Eastham & Associates** professionals / management, office technicians and field crews conduct projects as a well coordinated and managed team.

Eastham & Associates offers “one – stop – shopping” for a variety of clients.

A strong network of Teaming Partners are utilized for geotechnical investigations, aerial mapping services, 3-D Scanning etc. and assures few projects are beyond E&A’s capabilities.

Equipment

Eastham & Associates has more than sufficient equipment and vehicles to fully equip and field over *six (6) survey crews*. All equipment is well maintained and routinely field calibrated to the manufacturers specifications. Firmware / software agreements are maintained with the original manufacturers to assure that all equipment is kept up to date, fully and accurately functional.

Eastham & Associates has close working relationships with equipment dealers and distributors. Equipment can be purchased, rented or leased and delivered virtually overnight to any location as needed.

Facilities

The **Eastham & Associates** Facilities consist of two main office buildings and several support storage and maintenance structures, and have been located at 3992 State Route 7 in southern Lawrence County since 1983.

Technology

Eastham & Associates maintains *state-of-the-art* and highly reliable technological resources including field surveying, office equipment and software.

The **Eastham & Associates** team utilizes *14 Desktop Computers and 7 Laptop Computers*. All computers are networked to a Microsoft Server with files backed up

daily. The operating systems are kept current for a more-than-adequate component of the latest state-of-the-art software's and operating systems.

Eastham & Associates continues to stay on the cutting edge of technology by constantly evaluating new software and updating to the latest or newest versions when deemed appropriate.
